

224.16-080 Change or extinguishment of assignment of mixing zone for bioaccumulative chemicals of concern.

- (1) In accordance with the water quality standards established in 401 KAR 10:029 in effect on March 24, 2021, which have been submitted to and deemed approved by the United States Environmental Protection Agency pursuant to its 2018 triennial review of Kentucky's water quality standards under 33 U.S.C. sec. 1313(c), any mixing zone for bioaccumulative chemicals of concern assigned by the cabinet on or before September 8, 2004, shall be in effect from that date unless and until explicitly extinguished by the cabinet after March 24, 2021.
- (2) Any change or extinguishment in mixing zone assignments for bioaccumulative chemicals of concern by the cabinet shall only be accomplished through the promulgation of administrative regulations pursuant to KRS Chapter 13A.

Effective: March 24, 2021

History: Created 2021 Ky. Acts ch. 103, sec. 1, effective March 24, 2021.
